To Our Friends and Customers.

We regret to announce to our friends and customers that on the morning of Feb. 4th, 1900, our stock of Clothing, Hats and Furnishings was almost entirely destroyed by fire and water, and our building badly damaged, which will unavoidably cause a suspension of our business for a short time.

Contracts have been made and the workmen are rebuilding our store, which will be pushed to completion as rapidly as possible, and we hope to be able to reopen on or about April 1st, at our old stand, with an entire new and beautiful stock of Clothing and Gents' Furnishings.

All the stock saved from the fire has been sold to Mr. Jacob Goldstein of Danville, Va., and Mr J. Rosengartner, of Raleigh, N C.

We feel grateful to all our friends and customers for their very liberal patronage in the past, and hope by fair dealing and a strict attention to business to merit a continuance of same.

We would thank all parties indebted to us to call and settle same, as we are anxious to balance our books. Also request all parties having accounts against us to present same. Our office is at present No. 106 South Davie street, two (2) doors north of C. P. Vanstory's Livery Stables, in the McAdoo House building.

Very Respectfully,

C. M. VANSTORY & CO.

MCKINLEY TO VISIT THE SOUTH

MR. OSBORNE'S NAME L'KELY CAME TOO LATE

The Fate of the Porto Rican Bill in Great Doubt—Meeting of Governors in Washington.

Special to the Telegram.

Washington, Feb. 22—President McKinley will probably take a southern trip next July. Oscar T. Corson, of Ohio, president of the national educational association, accompanied by Dr. Harris, United States commissioner of education and a prominent member of the association, and Dr. J. L. M. Curry, who is ex-Minister to Italy, and also a member of the association, called at the white house and extended a cordial invitation to the president to visit Charleston at the time of the national educational convention which assembles in that city July 7th next. The president received the delegation very cordially, and after a pleasant exchange, in which the president referred to his southern trip last summer he asked for time to consider the matter.

Governor J. Hoge Tyler, of Virginia, is in Washington for a few days. He is attending the meeting of the centennial committee which is to consider plans for the Washington centennial. the committee assembled at the Arlington hotel yesterday morning, and was attended by fifteen or sixteen governors of the various states. Several southern state executives are in Washington, including the governor of Tennessee, Governor McMillan. Last night a banquet was given at the Arlington Hotel in honor of the visiting executives. Governor Russell, of North Carolina, did not put in his appearance, but Governor McSweeny is here representing South Carolina.

The outlook for the passage of the Porto Rican bill is not encouraging to the republicans. So far as known only two democrats will vote in favor of its passage, Messrs. Davis, and Sparkman, of Florida. About forty or fifty republicans are thought to be opposed to the measure. If this is correct the defeat of the bill is assured, as the republican majority in the house is only fourteen. There has been considerable talk of a republican caucus to consider this bill, but the chances are that it will not be held, as the leaders are fearful that it might make the defeat assured. If the bill is defeated, an effort may be made to pass a free trade bill between this country and Porto Rico, as was at first proposed in the annual message of President McKinley last December. The Virginia delegation are solidly in opposition, but the North Carolina delegation are divided.

A strong delegation, composed of Representatives Bellamy, Kitchin and Crawford, of North Carolina, and Stokes, Latimer and Finley, of South Carolina, called at the White House yesterday for the purpose of presenting to the president the name of Frank Osborne for a place on the Philippine commission. Mr. Osborne's name was first presented by Senator Pritchard. The president did not, however, give the delegation much encouragement, saying that he appreciated their efforts in behalf of the Charlotte gentleman, but feared that his name had been presented too late.

Suffering With Her Eyes.

Mr. S. L. Trogdon has returned from Washington, where he went to put his little daughter, Jessie, under the treatment of Dr. S. W. Burnett, the celebrated occulist, for her eyes. Jessie is only eight years old and her eyes have become so bad that she had to quit school. Mr. Trogdon says there are hopes that her sight will be fully restored.

The Juniors Return.

The delegates to the State Council in Durham of the Jr. Order of United American Mechanics, have returned home, and report a most pleasant and profitable meeting. The only hotly contested point was as to where the next meeting should be held. Wilmington and Winston entered the ring and Winston was the winner by one majority.

Hail, Wind and Rain.

This city was visited by a severe hail storm last night, accompanied by wind and rain. The hail stones were not large, but had it been spring or summer the damages would have been great, as there was enough of it to have torn vegetables into shreds. No serious damage has been reported.

A Cordial Invitation.

Col. W. J. Woodward, of Wilmington, grand chancellor Knights of Pythias, will hold a district meeting in Winston, March 2, similar to the one held here last April. Local Pythians in the twin city are making preparation to entertain the visitors in royal style. District Deputy Grand Chancellor Crist, of Salem, extends a cordial invitation to the lodges in Greensboro to send large delegations on that occasion.

COSTLY ACTION LAST SUNDAY

Kelly-Kenny Got on the Rear of Cronje and Action Began

DISPATCH THAT BOERS ARE GOING

Furiously Shelling Ladysmith as They Move—Buller Gradually Nearer, as the People Watch.

Paardeberg, Feb. 22.—One of the costliest actions of the war occurred here Sunday. General Kelly-Kenny, pursuing Cronje caught his rear guard at Klip Drift, and following the burghers to their laager at Koodoosrand Drift, an action was begun at day break. The mounted infantry drove the Boer rear guard up the river towards the main army, while another body of mounted infantry manouvered on the right front and flank of the Boers. The main body of British advanced to outflank the Boer laager on the north bank of the river. Kelly-Kenny having seized two drifts and found the Boers strongly entrenched, ordered an attack with the highland brigade on the left, Knox's brigade on the centre and right. Gen. Smith Darien's brigade crossed the river and advanced along the north bank.

The ground on both sides was level, and the advance over that was deadly, and the British lost heavily. The soldiers were under fire all day long, and all the fighting had no definite result, As the laager was heavily barricaded the enemy remained therein. The British shelled them vigorously. Terrific shelling was resumed Monday, when Cronje asked armistice. Shelling was continued Tuesday, and over fifty guns poured lead into the Boer camp. The Boers confessed to a loss of over 800.

London, Feb. 22—Official wire press dispatches agree on the statement that the Boers are fleeing all points in Natal. As they withdray they vigorously shell Ladysmith, to keep White from helping Buller. Buller draws constantly nearer and his advance is watched from town. Federal troops are rushing to support Cronje who is desperately fighting Loberts on Bloemfontein.

HAY ANSWERS MACRUM.

Never at Any Time Reported Alleged Action of British Agent.

Washington, Feb 21—The president sent to the house today the answer of the secretary of state to the resolution presented by Mr. Wheeler, of Kentucky, calling for information as to whether Charles E. Macrum, formerly consul at Pretoria, had informed the state department that his official mail had been opened and read by the British censor at Durban, and if so, what steps, if any, had been taken in relation thereto, and what truth there was in Macrum's charge that a secret alliance existed between the United States and Great Britain. The answer of the secretary of state says, among other things:

"The only instance of complaint in respect to the transit of mails from Lorenzo Marques and Pretoria was in November last, when a temporary stoppage of mails occurred at Cape Town against whom Macrum and the consul at Lorenzo Marques protested. Arrangements were made for prompt delivery of consular mails to the United States consul at Cape Town, by whom mail for Hollis and Macrum was forwarded to Lorenzo Marquez The delay lasted but a few days and has not recurred. After that time the department's mail for Lorenzo Marquez and Pretoria was sent by a neutral route.

"At no time while at his post did Macrum report to the department any instance of violation of his official mail by the British censor at Durban, or by any persons whatsoever, there or elsewhere.

"Answering the second part of the resolution, the undersigned secretary of state has the honor to say that there is no truth in the charge that a secret alliance exists between the republic of the United States and the empire of Great Britain; that no form of secret alliance is possible under the constitution of the United States, inasmuch as treaties require the advice and consent of the senate; and, finally, no secret alliance, convention, arrangement or understanding exists between the United States and any other nation. John Hay."

PHILIPPINE WAR TO CLOSE.

THE ARMY WILL GIVE PLACE TO TO MOUNTED POLICE.

Time is now Ripe to Establish Civil Government and the President is at Work.

Washington, Feb 21—According to information received at the War Department from Manilla, with the end of the present expedition of General Bates into the two provinces of the extreme Southern part of the island of Luzon, military operations in the Philippinees will close. Afterward there is nothing to do, but to undertake to maintain order through a police system. It is said that attention is now being given to that cubject, and steps are being taken to form a thoroughly mobile, lightly armed gendarmrie, something on the order of the Canadian mounted police, to cover the islands at all points, and conserve the energies of the regular troops.

The arrest of a tagal on the charge of being a guerilla as reported from Manilla yesterday, it is said at the War Department, marks the initiation of another policy toward the insurgents who still remain under arms; or rather the development of the old policy toward the logical outcome of an unsuccessful rebellion. As the summary punishment of guerillas cannot be had until some action has been taken to delare the termition of the application of the rules of war it is assumed at the war department that General Otis has already issued some kind of a proclamation or notice to the natives, warning them that if they defy the rules of war they will be treated as guerillas when captured.

The president is devoting special attention to the formation of the new Philippine commission, acting on the advice that the army has reached the end of its functions in the islands, and that the time is ripe for the establishment of civil governments throughout the archipelago. It is hoped that the personnel can be completed before the end of the next week.

A Matrimonial Item.

Corn Cracker in Charlotte Observer.

King's Mountain, Feb. 18—I learn of a novel procedure in the matrimonial line. The scene is laid in one of the cotton mills of King's Mountain, and the contracting parties are a lovelorn swain whose head has been whitened by the frosts of 18 winters, while his enamorati is a spinster of some 15 summers. They concluded to marry while life prolongs its precious light, and hence the services of a minister were secured, when the words, supposed to blend their lives, were said. But as all subluinary things are uncertain, unheard of complications arose. The parents of the bride refused to give her into the keeping of the groom, and he felt that this world is but a wilderness of woe for man's illusion given. He called on a man who is wise as a serpent in the mighty matters of law. This counsellor issued claim and delivery papers, to arrest and secure the property wherever found. It is further stated that the parents set up a counter claim, and another attorney came to their rescue with an injunction. The bride, it is further stated, is on the side of the injunction in sentiment, and hence the matter seems to be against the bridegroom. His heart is aching because he fails to hold his bride, and for sundry presents in the way of jewelry, bonbons and other tokens of unrequired affection.

Sewall Declares for Expansion.

New Orleans, Feb. 21—Arthur Sewall, the vice-presidential candidate of the campaign of 1896, left here last night for Washington, where he will confer with Bryan. Sewall hopes to cement Bryan to the policy of expansion. He says he believes that the nominee will be elected president on the expansion plank.

He declares that the democrats should readjust the Chicago platform by the insertion of a plank declaring for expansion and American ownership of the Philippines. He says he is out of politics and will never be a candidate again, but he will enthusiastically work for democratic success, if the platform is what it ought to be. He asserts that the American people will never consent to the pulling down of the flag anywhere.

Agreement in Kentucky.

Louisville, Feb. 2—The contests over the State offices are very much simplified by an agreement entered into today, between the attorneys for the republicans and the democrats representing both sides, and straightning out the legal tangle over the multiplicity of injunction suits for the title for the governorship. The agreement is that there shall be a speedy trial in the courts on an agreed case involving all the issues, the first hearing to be before Judge Emmett Field at Louisville.

Pope Blesses Pilgrims

Rome, Feb. 22—At noon today the Pope visited St. Peter's for the purpose of blessing several groups of pilgrims. There were 16,0 0 pilprims.

"After doctors failed to cure me of pneumonia I used One Minute Cough Cure and three bottles of it cured me. It is also the best remedy on earth for whooping cough. It cured my grandchildren of the worst cases," writes Jno. Berry, Loganton, Pa. It is the only harmless remedy that gives immediate results. Cures coughs, colds, croup and throat and lung troubles. It prevents consumption. Children always like it. Mothers endorse it. Howard Gardner.

INSTRUCTS CHOATE TO PROTEST

BRITISH SEIZED A STEAMER WITHOUT JUST CAUSE.

Could Have Effectually Prevented Transference.

London, Feb. 22—Ambassador Choate has received a dispatch from Secretary Hog protesting against the seizure of the sabine, while on the way from New York to British ports in South Africa. He characterizes the seizure as unnecessary, and says the British could have effectually prevented transference of contraband of war to the Boers after the Sabine cargo had been landed.

DURHAM'S BIG COTTON MILL.

Will Wipe Out of Existence "Smoky Hollow," Noted Criminal Resort.

Special to the Observer.

Durham, Feb. 21—Work will begin on the new suburban cotton mill about the middle of next month. Gen. J. S. Carr and Mr. T. B. Fuller, two of the prime movers in the new mill, are at home from New York, where they attended a meeting of the stockholders last week. At the meeting, the capital stock, which was originally $250,000, was increased to $450,000. The mill will contain 400 looms and 16,000 spindles. From the time the ground is broken next month until the mill is in full operation, work will be pushed as rapidly as possible. It is hoped to have the mill running some time early in the fall.

This cotton mill will be located in a community heretofore one of the most disreputable in the county. It is known as "Smoky Hollow" and has been a hotbed of crime for years. The company has purchased the entire locality, and, in addition, some adjoining property, holding in all some 65 or 70 acres.

In addition to the cotton mill the Durham Hosiery Mill and the city electric light plant, both of which are practically owned by Gen. J. S. Carr, will be located on the same property The capital stock of the former plant has been increased from $100,000 to $250,000 and the capital invested in the new light plant will be $50,000. The light plant is to take the place of the one destroyed by the boiler explosion about two weeks ago. Work is to begin on the new building next Monday, and it is hoped that the city, which is now in darkness, so far as street lights are concerned, will be lighted within a few weeks' time. The hosiery mill building is to be completed and in operation by September 1st. In the meantime the mill will run on in its present quarters.

The new industries to be erected at once will have a combined capital of $750,000 and will give employment to some 1,500 or 2,000 hands.

Charleston to Have an Exposition.

Charlotte Observer.

The business men of Charleston have decided upon holding an exposition in that city in the fall of 1901, and are already energetically at work in its behalf. They have organized for the undertaking and are pushing the business at a rate that if kept up, must result in a decided success. It is proposed that the principal feature of the exposition, the main building, shall be a cotton palace, in which will be shown, as it were, a cotton seed and what comes from it. The history of cotton will be made an object lesson from the time the first shipment was made to Europe in 1748 down through the years to 1901. The growing crop, the first Whitney gin, the presses of the past and those of today, the manufacturing machinery of the first half of the nineteenth century and that of the present, will all be in active operation in order that the people may see and learn. This feature alone would make an exposition that would interest the entire country, and indicates that the Charleston exposition is going to be something worth seeing. Its conception is along the right lines. An exposition of this kind could scarcely fall short of a triumph.

THURSDAY, FEB. 22, 1900.

GEORGE WASHINGTON.

The 22 of February should be a day remembered by Americans on its every recurring anniversary, for it is the birthday of a man unique in the world's annals. It should be a day of sober thought and reckoning by all Americans; this birthday of Washington, the one whom we are to thank more largely than any other for the blessings we enjoy today in the greatest country in the world, the land of individual opportunity and reward.

Nothing tells so well the story of Washington's wonderful influence on his time, than the fact that he is today the one man of history whose fame is on the increase one hundred years after his death. No man has ever had such personel influence on the destiny of a great country, and consequently on the world, as he. He was the supreme man of his time. There were other men endowed largely with the elements of greatness, but their fame is gradually growing dimmer, while that of Washington increases. The world seldom takes the trouble to remember more than one man of a period, and sometimes it remembers only one in a long stretch of a nation's history. His is the only individual and personal influence of his time that is living and being felt by the country today. Warr or, statesman, and man of affairs, the time found in him one equal to all emergencies. Long live the name and fame of Washington, a benefactor to his country, an inspiration to his race

THE CANAL TREATY WILL FAIL.

The Nicaragua canal treaty, known as the Hay-Pauncefote treaty, because negotiated by the gentlemen of these names, respectively for the United States and England, seems doomed to fail of ratification by the senate. The treaty is certainly one calculated to arouse opposition in this country. It looks as if in dividing up the thing all the work and expense comes our way and a large per cent. of the advantage to the other powers, without any adequate return from them. As an evidence that they so regard it, all of them readily give their approbation, with the exception of France, and that country has good reasons to object to any scheme that takes from her and her citizens the possibility of completing the Panama canal.

So far as we understand, the treaty provides that the United States shall build the canal at its own expense, and England and our government jointly shall guarantee its neutrality. That part of it appears alright, but when the further stipulation provides that the United States shall not fortify the canal, it seems to us that the whole thing should fall. When completed the canal will be a commercial highway for the world, of course, but one which the world had no hand in making. And more than that, it will be practically a coast waterway for the United States, and one which we should very much need to control in time of war. Suppose it were possible for a hostile fleet to sail to the west mouth of the canal, unknown to us, and demand entrance. Having no fortifications and no way to object, away might come the fleet into the Gulf of Mexico and be attacking our Gulf coast before we had the time to put an opposing fleet into those waters. Such a possibility as this would necessitate the maintenance of a fleet at each end of the canal. We can see but one argument for the treaty, that is that by it all difficulties would be removed and the actual work on the canal might be sooner begun.

Right along in connection with the treaty came the committee report on the House's investigation into the canal subject. This report sat down flat on the Bulwer-Clayton treaty of fifty years ago, which it calls a ghost of the past, declaring that when that treaty was made fifty years ago, it contemplated the immediate construction of the canal, and by lapse of time and failure to do the work, the treaty is no longer binding. The committee recommends the begining of the work at once. While we have the utmost confidence in the wisdom and patriotism of Mr. Hay, we like the tone of the House's talk, and hope to see the canal yet built by this country alone, with guarantees to nobody, provided of course, that it would not be too great a strain on our relations with the world as fixed by the Monroe doctrine.

The activity of Congressman Bellamy at Washington is quite marked. He is a man of fine judgment, and if allowed to stay in congress any length of time will become of great service to his state.

The statement of Secretary Hay rather puts a damper on Ex-Consul Macrum.

ANXIETV MANIFEST IN LONDON.

Belief That Cronje Has Beaten Off His Pursuers.

London, Feb. 22, 4 a. m.—Lord Roberts' list of 49 killed and wounded officers, including two generals, in the engagements up to Sunday evening, causes anxiety, especially as in the officers' list neither the losses of the Welsh and Essex regiments nor those of the mounted infantry are included. This is about the number that fell at Colenso, where the non commissioned officers and men brought the total losses to 800. It is considered strange that when sending his casualties Lord Roberts gives no information as to the results of the fighting. If he has sent such a report, the war office is withholding it. Moreover, nothing is known as to what took place Monday, Tuesday and yesterday. This absence of details from Lord Robert's dispatch contrasted with his rather full narratives during the first part of his operations, produces uneasiness among military observers. All the comment in the morning newspapers, both editorial and critical, is threaded with the disturbing suggestion that, despite hard fighting, General Cronje has been able to beat off his pursuers, has escaped and is being reinforced by rail from Ladysmith and by forces on foot and horseback from northern Cape Colony, as well as the late beleaguers of Kimberly.

As the correspondents with Lord Roberts are silent the telegrams from Boer sources receive some countenance. The latter aver that General Cronje, while the British were endeavoring to surround him between Paardeberg and Koodoosrand, received reenforcements under Dewit, and that together the Boer commanders fought the British to a standstill. At any rate, while no one doubts his ultimate success, there is a fear of a temporary disappointment and that a lot of hard fighting is yet ahead of the British.

The latest report regarding General Buller circulated in the house of commons last evening was that an agent of the DeBeBeers company had received a cablegram from Cape Town, which must have passed the censor, to the effect that General Barton's Fusilier Brigade had reached the hills commanding Ladysmith. Quite apart from this, however, and from every other rumor, the early relief of the beleaguered garrison is thought inevitable.

SUGGESTIONS IN FIRST FIGHT.

Comments on the New Movement Against the American Tobacco Co.

Raleigh Post.

The plan is to have the legislature at the June session repeal the charter of the Blackwell's Durham Tobacco Tobacco Company, which corpus became the property of the American Tobacco Company a few years ago, the legislature to appoint Major Guthrie, Mr. James F. Jordon and such others as it may see fit, trustees to take charge of the property, books, rights, privileges, &c., &c., &c., of said company and wind up its affairs, in the meantime to "conduct and carry on the business of said corporation as they may deem best for the interests of the creditors and stockholders."

Major Guthrie, it seems, is a minority stockholder, holding one share of stock ($25 face value) out of the $4,000,000 of capital stock. He asks, therefore, this repeal of the charter and appointment of trustees by the legislature as a minority stockholder.

That the legislature will hasten to pass the bill no one should doubt. But as a friend of industrial development in the start, and a champion of free trade in tobacco and anti-trust schemes generally, we be to submit that the measure is seriously lacking in proper safe guards, and should be amended.

In the first place, as the state, through this investment, provides for "conducting the business of said corporation" so long as the trustees therein named may see fit, it should not be provided that The American Tobacco Company, nor any one for said company shall buy any tobacco sold in this state, under a heavy penalty for each violation of this provision. This would secure to the state, through its trustees, largely if not the exclusive benefit of the tobacco grown by our own citizens.

Secondly, the said trustees should be required to pay to the farmers at least fifteen per cent advance over average prices for the past five years. We mention this price and time because it is that fixed by Mr. Jordan in in his plan recently adopted by the Tobacco Growers' Association. This would assure to the farmers some return for their labor, and also a market for their crop.

Thirdly, and this is most important of all, fix a very heavy penalty, to be visited upon any minority stockholder who may ask the legislature next winter to repeal this new concern. It is a happy privilege that such minority stockholders can exercise now, in the present instance, but no such opportunity should be left by which this new creature of the law may be harassed and embarrassed by some sinster and evil disposed person or persons. For such to be done hereafter would establish a precedent most pernicious in tendency and should be carefully provided against. The State cannot permit the integrity of its own institutions certainly to be subject to such assaults by selfish schemers. We know we need not suggest to so god a lawyer and patriotic a citizen as Major Guthrie that a "frequent recurence" to such legislative meddling would disembowel the most useful enterprise, such as this promises to be, that could be established.

SALT RHEUM CURED BY Johnston's Sarsaparilla

QUART BOTTLES.

JUST SEEN IN TIME.

Slight Skin Eruptions are a Warning of Something More Serious to Come. The Only Safe Way is to Heed the Warning. Johnston's Sarsaparilla is the Most Powerful Blood Purifier Known.

Nature, in her efforts to correct mistakes, which mistakes have come from careless living, or it may be from ancestors, shoots out pimples, blotches and other imperfections on the skin, as a warning that more serious troubles (perhaps tumors, cancers, erysipelas or pulmonary diseases) are certain to follow if you neglect to heed the warning and correct the mistakes.

Many a lingering, painful disease and many an early death has been avoided simply because these notes of warning have been heeded and the blood kept pure by a right use of JOHNSTON'S SARSAPARILLA.

Miss Abbie J. Rande, of Marshall, Mich., writes:

"I was cured of a bad humor after suffering with it for five years. The doctors and my friends said it was salt rheum. It came out on my head, neck and ears, and then on my whole body. I was perfectly raw with it. What I suffered during those five years, is no use telling. Nobody would believe me if I did. I tried every medicine that was advertised to cure it. I spent money enough to buy a house. I heard JOHNSTON'S SARSAPARILLA highly praised. I tried a bottle of it. I began to improve right away, and when I had finished the third bottle I was completely cured. I have never had a touch of it since. I never got any thing to do me the least good till I tried JOHNSTON'S SARSAPARILLA. I would heartily advise all who are suffering from humors or skin disease of any kind to try it at once. I had also a good deal of stomach trouble, and was run down and miserable, but JOHNSTON'S SARSAPARILLA made me all right."

The blood is your life and if you keep it pure and strong you can positively resist disease or face contagion fearlessly. JOHNSTON'S SARSAPARILLA never fails. It is for sale by all druggists, in full quart bottles at only one dollar each.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

THE BEST MUSCLE BUILDER AND BLOOD MAKER

GIVES STRENGTH TO THE **STOMACH,** PURITY TO THE **BLOOD,** LIFE TO THE LUNGS.

Lieutenant Governor Woodruff, of New York, who is a candidate for vice-president, has gone to Detroit to begin a series of speeches in western cities.

Old Love and New Repartee.

People are smiling at the little passage at arms which took place between two young women at a luncheon the other day. One of the women is a beautiful blond, a bride, and she comes from the south. She met the other woman first at the aforesaid luncheon and, shaking hands in her characteristic, cordial way, said:

"I'm so glad to meet you! You have afforded me so much amusement."

"Amusement?" said the other.

"Oh, yes!" went on the bride. "I've been through my husband's desk, and I've read all his old love letters. I found several very warm and affectionate letters from you, and I enjoyed reading them ever so much."

"I'm so glad you enjoyed them!" purred the other. "But do come to see me very soon. I have the answers to all those letters, and you might like to read them. Mr. X.'s letters are ever so much warmer and more affectionate than those I wrote him. I know you'll enjoy reading them ever so much more than you did mine."—New York World.

A Natural Mistake.

"I went to Paris," says an Englishman, "staying at the Hotel de Lille et d'Albion. Never having been before, I lost my way and could not find my hotel again, because I neither spoke nor understood French. Thinking some of the people I met might understand written English, I went into a stationer's shop and bought a large card, on which I wrote, 'Please tell me the way to the Hotel de Lille et d'Albion.'

"Again I sallied out, showing my card to several, but still to no purpose. At last a man read it and silently beckoned me to follow him, which I did as silently for a mile or more. Then he pointed, still silently, to the sign of the hotel, and when I saw it I broke the silence by exclaiming, 'Thank you.'

"'What,' he replied in amazement, 'are you an Englishman? So am I, but I took you to be deaf and dumb.'"

Nell—"How do you like Maude's new complexion?" Belle—"It's as thick as two theives."

WINE OF CARDUI

Woman's Crowning Virtue.

BELTON, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

McELREE'S Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

A Senator Too Free with His Fists.

Charlotte, N. C, Feb 20—Senator Sullivan, of Mississippi, will be sued for $50,000 damages says Pullman Car Conductor Coles of the Southern, who alleges that Sullivan, in his car Monday night severely abused him and struck him in the face, giving him a black eye. According to Coles Sullivan was under the influence of whiskey and had been since he left Washington. Coles states that Sulivan tried later to smooth the matter over and apoligized. Coles thinks that Sullivan should be made to pay for his conduct.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows; "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters: and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

Physical culture never makes a girl strong-minded.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and $1.00. Trial bottles free at C. E. Holton's drug store.

For the Babies.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucous, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. An Editor's Life Saved by Chamberlain's Cough Remedy.

During the early part of October, 1896, I contracted a bad cold, which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S.S.S. For The Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help: but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by C. E. Holton, druggist. Guaranteed.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at C. E Holton's drug store.

Few women can drive a tack, but most of them can nail a lie.

LETTER TO "HEADQUARTERS."

Intended for Revenue Depaitment Delivered to City Clerk.

A man in an adjoining county evidently thinks the revenue business is the biggest thing in Greensboro. A letter directed by him to "Headquarters, Greensboro N. C.," was delivered to City Clerk Michaux, who opened and read it. The letter was intended for the revenue authorities here and contained alleged information of the whereabouts of "moonshine" distilleries in a neighboring county. It has been turned over to the officers to act upon as they think best.

Mr. Michaux, as city clerk, receives a variety of enquiries. This morning he got a letter from a retail whiskey man, asking for the names of the most prominent and reliable wholesale whiskey dealers in Greensboro. He says he thinks a purer grade of "mountain dew" can be procured here than in most places. Mr. Michaux's reply would be interesting for publication in this connection, but as he is yet too weak to attend to much business of that kind it will be indefinitely deferred.

THE BIG REVOLUTION MILLS.

The Boilers in Positiov, Engine and Other Machinery Arriving.

The only mill of its kind in the south—for the manufacture of cotton flannel—now being built near North Buffalo creek, and known as the Revolution Mills, is nearing completion. Mr. Sternberger, one of the owners, who is superintending the erection and equipment of the mill, was seen by a Telegram man today, and says work is progressing very satisfactorily and he hopes soon to have the wheels ready to turn.

The mammoth boilers are already in position. The engine (500 horsepower), has arrived and the work of erecting it was begun today. Part of the machinery for the manufacture of goods has also arrived and will be put in position at ance. The mill will be equipped with twelve thousand spindles and 376 looms.

EWART'S DECISION REVERSED.

THE BENBOW CASE REMANDED TO WESTERN DISTRICT COURT

With Directions to Dissolve the Order Restraining the Commissioner From Executing Dec.ee of State Court.

Since the publication in the Telegram on Monday of an item stating that the United States Circuit Court of Appeals, sitting in Richmond, had that day decided the matters in controversy in the Benbow bankruptcy case in favor of the defendants, there has been some speculation among the legal fraternity here as to how far and in what respect the decision of the appellate court overruled the decision formerly made by Judge Ewart and from which the defendants appealed. The opinion of the Court of Appeals was delivered by Judge Paul, of the Western District of Virginia, and has been received by Clerk Trogdon, of the federal court, in this city. The order remanding was made by Judge Simonton and is also on file in Mr. Trogdon's office. The opinion is a lengthy one. The order remanding is shorter and conveys a comprehensive idea of the present status of the case and in what respect Judge Ewart is overruled. It is here copied in full:

"C. P. Frazier, Commissioner, Charles D. Benbow, D. W. C. Benbow, Petitioners,

vs.

"Southern Loan & Trust Co., Trustees in Bankruptcy of Benbow, Respondent,

"On petition to superintend and revise, in matter of law, proceedings of the District Court of the United States for the Western District of North Carolina at Greensboro, in the matter of Benbow, bankrupt.

"This cause came on to be heard upon the petition and transcript of the proceedings of the District Court of the United States for the Western District of North Carolina, of the matter for review, and was argued by counsel and submitted.

"On consideration whereof, it is now here ordered and adjudged by this court that the orders of the said District Court in this cause brought up for review, be, and they are hereby reversed, with costs, and this cause is remanded to the District Court of the United States for the Western District of North Carolina at Greensboro, with directions to dissolve the order restraining the commissioner of the State Court from executing the decree of sale entered by the State Court; and to revoke the order directing a sale of said property by the trustee of Benbow, the bankrupt, and to dismiss the petition of the said trustee without prejudice to his right to proceed in the State Court as he may be advised.

"Charles H. Simonton,
"Circuit Judge."
